

## Office of the Mayor Savannah, Georgia

**Otis S. Johnson, Mayor**

*October 29, 2008*

*Ms. London Mainor  
Public Relations Manager  
Spine & Sport Physical Therapy  
461 Johnny Mercer Blvd., Suite C-5  
Savannah, Georgia 31410*

*Dear Ms. Mainor:*

*On behalf of the Savannah City Council, I am pleased to extend greetings to you and the staff at the Spine & Sport Physical Therapy Center in acknowledgement of National Physical Therapy Month.*

*Physical Therapy is a very honorable profession and significantly vital to helping and encouraging individuals to achieve healthier lifestyles. We recognize that physical therapists and physical therapist assistants are invaluable members of the individual health care team. These health care providers work diligently on behalf of people of all ages to evaluate, diagnose, monitor treatment, and help prevent conditions associated with loss of mobility through fitness and wellness programs. Their goal is to help individuals lead more productive and functional lives through the benefit of physical therapy rehabilitation. Their dedication to providing high quality rehabilitation services is demonstrated daily in thousands of clinics and facilities throughout Georgia.*

*During the month of October 2008, through a national effort, Spine and Sport and community members are joining together to raise public awareness of the importance of preventive health. This effort will not only bring awareness to our local community, but to communities around the country concerning healthier and more active lifestyles.*

*We commend all physical therapists and physical therapist assistants at Spine & Sport, throughout the city of Savannah and around Georgia for their continual commitment to improving the health and quality of life for all individuals.*

*Sincerely,*

*Otis S. Johnson, Ph.D.  
Mayor*
